

Do you love building?

Are you really into computers?

Have you ever had, or wanted, a remote control car?

Do you like taking things apart to see how they work?

Are you looking for something to connect with other students at iCademy after school?

Do you like shows like Myth Busters?

Do you want something that looks awesome on your College application?

Do you want to learn more about careers in STEM fields from real experts?

Robotics is for you!

Join the iCademy Global First Robotics team

Practices/build days are held from 6-8 PM each evening Monday through Thursday

and from 1-4 on Saturdays. Competitions will take place in March in St. Joe and at Grand Valley.

Whether you know a lot about computers, motors and robotics or are just curious how it all works, come check us out.

Email Chad Zuber at chad.zuber@innocademy.com for more information. Or come upstairs from 10-10:45 Tuesday and Thursday and talk to me in person.
