Public Act 48 Plan
Mid-Year Goal Reporting
February, 2023

Goal: The median Student Conditional Growth Percentile for students in grades K-8th will be at or above the 50th percentile on NWEA’s Measure of Academic Progress for fall-to-winter and fall-to-spring testing periods indicating a minimum of average growth.

It is important to note that the fall and winter norm targets in this report are taken from NWEA's 2020 Norm Study. This study was completed prior to the COVID-19 pandemic. The pandemic has and continues to impact student instructional time, alter the type of instruction (virtual/remote or in person), and widen the disparity gap. If a norm study was conducted during a pandemic, it would likely yield different targets.

Goal: There will be growth in the percent of students in Kindergarten and 1st grade, that fall within Tier 1 on Dibels/mClass, from beginning of the year to end of the year.

Math

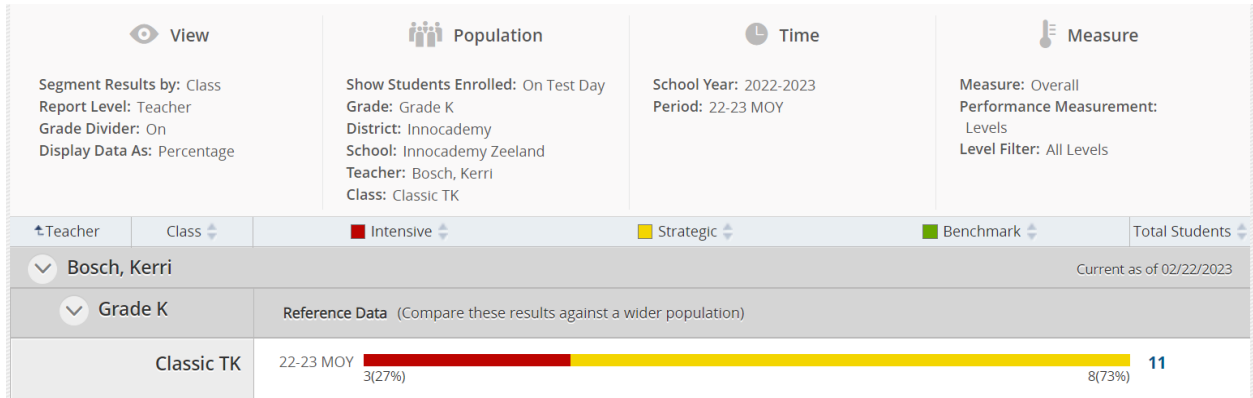

Grade	Beginning of Year Percent of Students in Tier 1	Middle of Year Percent of Students in Tier 1	Growth Percent of Students in Tier 1 from BOY to MOY
K	10%	14%	4%
1	9%	3%	-6%

Math (mClass) Kindergarten and First Grade, split by percentage of students

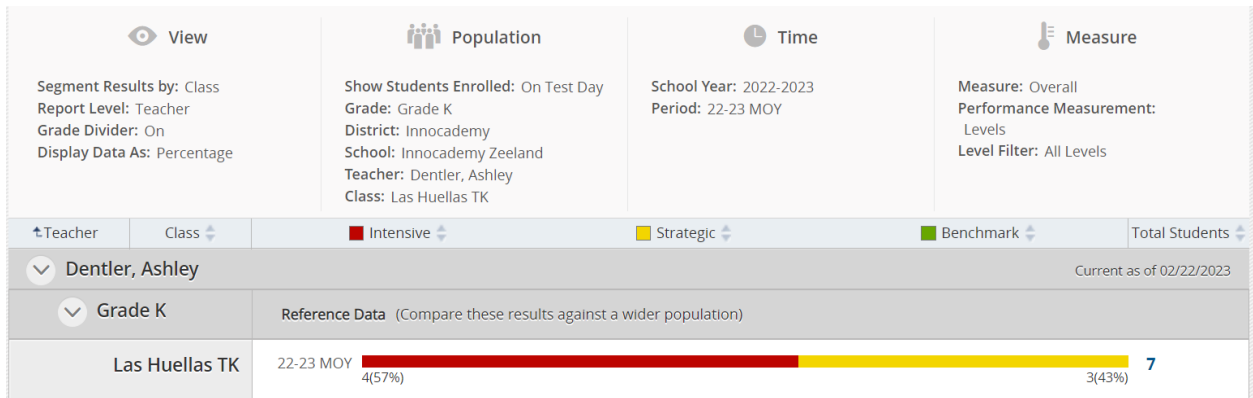

Please note: Classic TK and LH TK below did not take the mClass Math assessment in the beginning of the year therefore we only have achievement data for those classes for the middle of the year.

It is important to note that the fall and winter benchmark targets in this report are taken from DIBELS 8th Edition benchmark goals for Classic students and from mClass Lectura for Las huellas students. The mClass Math cut points provided the benchmark goals for Math for all students in grades Kindergarten and first grade. Student scores are used to determine how each student is doing in relation to a benchmark goal that is predictive of later reading success. The benchmark goals are criterion-referenced. Each measure has an empirically established goal (or benchmark) that changes across time to ensure students' skills are developing in a manner predictive of continued progress.

DIBELS 8th Edition benchmark goals were last updated by University of Oregon in July 2020. These updates reflect data from one million students from the 2019-2020 academic year, as well as two previous validation studies.
