

Annual Safety Drills

IT'S A TEAM EFFORT.

Innocademy

Which drills?

- Fire
- Tornado
- Shelter in Place (Lockdown)

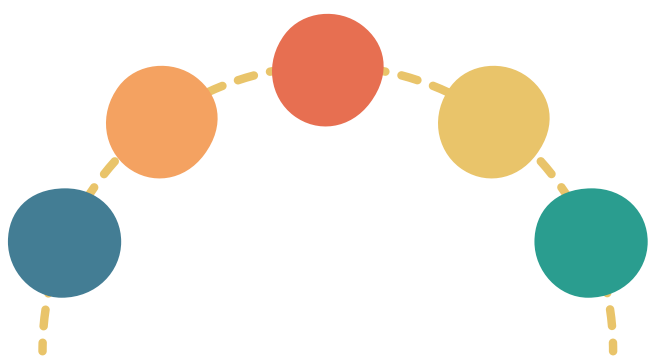

Why?

We hope that we will never experience an emergency at school. In the event there is an emergency, our students and staff will know what to do to keep each other as safe as possible.

How many are required?

The state of MI requires that we have 5 fire drills, 2 tornado drills and 3 shelter in place drills. One of these drills must be at lunch or recess.

Ways to talk about this at home.

1. Stay Calm
2. Be open to questions
3. Use comparisons
4. Help them understand the threat
5. Encourage your child to be a helper
6. Be available to your child for further discussion
